Tony Parsons The Open Secret

The Open Secret Tony Parsons,2000-01-01 Throughout my early life I felt that there was another possibility which once realised would transform all and everything One day that possibility became a reality and it was simple and ordinary magnificent and revolutionary It is the open secret that reveals itself in every part of our lives But realisation does not emerge through our attempts to change our lives it comes as a direct rediscovery of who it is that lives The Open Secret is a singular and radical work which speaks of the fundamental liberation that is absolutely beyond effort path process or belief

Nothing Being Everything Tony Parsons,2008-09 Nothing Being Everything features a powerful collection of dialogues and talks from late 2006 and early 2007 throughout the U K and Europe

I Hope You Die Soon Richard Sylvester,2006-03-20 This is an uncompromising and provocative book about non duality In liberation it is seen that all phenomena simply arise in awareness with no person mediating them Purpose religion and paths of spiritual development all lose their meaning when it is seen that there is no one who exercises choice The most common misconception about liberation is that it is something an individual can gain But liberation is a loss the loss of the sense that there ever was a separate individual who could choose to do something to bring about liberation When it is seen that there is no separation the sense of vulnerability and fear that attaches to the individual falls away then life is simply lived and relaxation takes place There is a sense of ease with whatever is the case and an end to grasping for what might be From I Hope You Die Soon

As It Is Tony Parsons,2000-01 This book encapsulates dialogues from the many public discussions that have taken place both in the UK and internationally following the publication in 1995 of *The Open Secret* by Tony Parsons

Open Secret Wei Wu Wei,2004 One of the best loved of Wei Wu Wei s books *Open Secret* enlightens us as to the true nature of the self as well as time space and enlightenment itself The work includes extensive commentary on the Heart Sutra regarded by Buddhists as the summation of the Buddha s wisdom The pseudonymous author studied deeply in Eastern and Western philosophy and metaphysics along with the esoteric teachings of the great religions In his writing he distils this knowledge into uniquely elegant prose full of humour metaphors profundity and his essential understanding of the open secret of life

The Book of No One Richard Sylvester,2008-04-26 In this poignant book humanist psychologist Richard Sylvester provides readers with unique insights regarding life s most difficult question Who are we The human mind is compelled to search for meaning But when we let go of our notion of the self we are often confronted with the emptiness of the world However even in that emptiness love and purpose can be found In *The Book of No One* Richard Sylvester continues to communicate the radical and uncompromising view of non duality expressed in his first book *I Hope You Die Soon* With clarity humor and compassion Sylvester answers many questions about the harsh truths of reality especially the nature of non duality liberation and enlightenment

From Self to Self Leo Hartong, 2005-09-18 A compilation of expressions questions and answers that came about in response to Leo's highly praised first book *Awakening to the Dream*. Leo writes with characteristic insight and uses metaphor to illuminate the paradoxical and apparently confusing nature of non-dual reality. His original writing is reinforced by a vast knowledge of non-duality in other spiritual traditions and he weaves these together with his own direct path to present clear pointers to contemporary seekers. An appropriately chosen quotation taken from various sources appears at the end of each short chapter. Also included at the end of the book is the full text of the Hsin Hsin Ming by the third Chan patriarch, Sheng-tse. The words in this book repeatedly point to the essence which knows the reading as it takes place. Rather than an encouragement to follow a lengthy path, it is an invitation to step off the path. It does not point to your awareness but to Awareness itself in which the idea of you appears. It does not point to your beingness but to the undeniable Beingness that appears as you.

Already Awake Nathan Gill, 2004-09-01 Nathan Gill is a rare voice in contemporary spirituality. Speaking with consistent clarity, he points out that all prescriptions for escape from the drama of separation instead serve as its reinforcement. Compiled from transcripts of one-to-one dialogues and group meetings, the talks featured in *Already Awake* present the essential message of non-duality in a profound yet straightforward way. Also included by way of an introduction to the main text is a revised version of Nathan's first book, *Clarity*.

Invitation to Awaken Tony Parsons, 2004 Parsons, a respected mystic, issues a radical call for readers to shake off the self-imposed limitations they have created for themselves and start living in the state of freedom that is natural to them.

Perfect Brilliant Stillness David Carse, 2005 An intimate account of spontaneous spiritual enlightenment and its implications in a life lived beyond the individual self.

This Is Unimaginable and Unavoidable Guy Smith, 2000-09-01 *This Is Unimaginable and Unavoidable* subtitle *Irresponsible Writings on Non-Duality* By Guy Smith. Foreword by Tony Parsons. This first book by Guy Smith addresses the appearance of separation from first-hand experience in an original series of prose, verse, and notices. Challenging and original, it constitutes a blast of freedom written in the period six months after awakening. Guy Smith is 24 years old and lives in Bristol. I love this book. It is passionate, uncompromising, irreverent, intimately openhanded, and wonderfully without any sense of order or progression. Throughout the whole work, there is very little that the cunning guru mind can get hold of and turn into a belief system. There is a powerful invitation within these outpourings which seems to harbour and generate a feeling of the sensuous, the impersonal, the unbounded mystery that lies beyond the words. This is not a book to wade through steadily but rather a deep pool in which to dip one's foot and maybe fall in. There is a proliferation of so-called Advaita Non-dual literature available today, and virtually all of it is borne out of a fundamental misconception about the nature of being. However, during the last decade, some rare, clear voices have emerged out of the mist, and Guy's work is surely an inspiring and unique confirmation of this wonderful message. From the Foreword by Tony Parsons.

Living Nonduality Robert Wolfe, 2011

The Self Illusion Bruce Hood,2012-06-15 Most of us believe that we are unique and coherent individuals but are we The idea of a self has existed ever since humans began to live in groups and become sociable Those who embrace the self as an individual in the West or a member of the group in the East feel fulfilled and purposeful This experience seems incredibly real but a wealth of recent scientific evidence reveals that this notion of the independent coherent self is an illusion it is not what it seems Reality as we perceive it is not something that objectively exists but something that our brains construct from moment to moment interpreting summarizing and substituting information along the way Like a science fiction movie we are living in a matrix that is our mind In The Self Illusion Dr Bruce Hood reveals how the self emerges during childhood and how the architecture of the developing brain enables us to become social animals dependent on each other He explains that self is the product of our relationships and interactions with others and it exists only in our brains The author argues however that though the self is an illusion it is one that humans cannot live without But things are changing as our technology develops and shapes society The social bonds and relationships that used to take time and effort to form are now undergoing a revolution as we start to put our self online Social networking activities such as blogging Facebook LinkedIn and Twitter threaten to change the way we behave Social networking is fast becoming socialization on steroids The speed and ease at which we can form alliances and relationships is outstripping the same selection processes that shaped our self prior to the internet era This book ventures into uncharted territory to explain how the idea of the self will never be the same again in the online social world

Code Girls Liza Mundy,2017-10-10 The award winning New York Times bestseller about the American women who secretly served as codebreakers during World War II a prodigiously researched and engrossing New York Times book that shines a light on a hidden chapter of American history Denver Post Recruited by the U S Army and Navy from small towns and elite colleges more than ten thousand women served as codebreakers during World War II While their brothers and boyfriends took up arms these women moved to Washington and learned the meticulous work of code breaking Their efforts shortened the war saved countless lives and gave them access to careers previously denied to them A strict vow of secrecy nearly erased their efforts from history now through dazzling research and interviews with surviving code girls bestselling author Liza Mundy brings to life this riveting and vital story of American courage service and scientific accomplishment

Being Nathan Gill,2006 Spiritual dialogues usually aim to guide the seeker towards enlightenment towards escape from identification as a suffering individual In Being The Bottom Line however Nathan Gill points out that enlightenment only appears significant from the viewpoint of me it s only the story of me that requires enlightenment Your true nature is Being and Being is already all that is even when there is seeming ignorance of that with no requirements whatsoever

Drink Tea, Eat Cake Richard Sylvester, 2011-10 Just before the publication of his second book in German Richard was invited on a promotional tour of Germany The resultant book part travelogue part book of non dual dialogues is an entertaining and profound collection of talks commentaries and asides recorded whilst Richard travelled across the Rhineland with Carl the translator Whether met with scepticism or appreciation Richard Sylvester never fails to deliver a message of undiluted non dualism with humour compassion and equanimity It is rare to find a work that is devoid of any agenda to satisfy the seeker's need to be given a path or a purpose to follow However Richard's latest book is just such a rarity Every response to a rich variety of questions points unwaveringly towards the non dual perspective The reader is carried along and inspired by an expression that comes out of a deep and rich experience of life with all of its complexity and humour Here is a book to savour to chuckle with and to keep and refer to as a rare work of undiluted non dualism Tony Parsons author of *The Open Secret*

Non-Duality Questions, Non-Duality Answers Richard Sylvester, 2016-09 *Non Duality Questions Non Duality Answers* is an organic interactive exploration of non duality the understanding that in life there is no separation only seamless Oneness Structured around reader questions this book invites you to participate in the argument for non separation inquire about the nature of the self and the experience of liberation and understand how non dual awareness can impact your life With this work spiritual seekers will gain clarity on what non duality is and what it isn't Since time immemorial key questions about the nature of existence have nagged at our consciousness What am I Why am I here Is this really all there is And for years non duality author and humanistic psychologist Richard Sylvester received questions like these along with deeply personal inquiries on non duality and intimate spiritual experiences from people seeking honest answers Now those questions and responses are available to you You may have sought answers to these fundamental inquiries in religion solitude the company of family and friends or conversations with gurus priests and philosophers Even so you may be living with lingering doubts about what you've been conditioned to believe feeling lost on the path or otherwise frustrated with organized religion or the indirectness and prescriptiveness of spiritual teachings With *Non Duality Questions Non Duality Answers* you'll find that self inquiry can help you end the cycle of inadequacy and searching that liberation through non dual awareness is possible and that no query is too strange or too grand for the discussion of life non separation and enlightenment at hand Designed to answer questions as they arise this book sheds spirituality and non duality of its complex prescriptions With a unique blend of patience compassion respect provocation and humor Sylvester shows that we are all united in our worrying and striving and gives you a glimpse of the Oneness that is so hard to describe but is so easily felt
