Herodotean Inquiries S. Benardete, 2012-12-06 Herodotus has so often been called since ancient times the father of history that this title has blinded us to the question Was the father of history an historian Everyone knows that the Greek word from which history is derived always means inquiry in Herodotus His so called Histories are in quires and by that name I have preferred to call them His inquiries partly result in the presentation of events that are now called historical but other parts of his inquiry would now belong to the province of the anthro pologist or geographer Herodotus does not recognize these fields as distinct they all belong equally to the subject of his inquiry but it is not self evident what he understands to be his subject the notorious difficulties in the proemium are enough to indicate this If his work presents us with so strange a mixture of different fields we are entitled to ask Did Herodotus under stand even its historical element as we understand it Without any proof everyone as far as I am aware who has studied him has assumed this to be so

The Sibylline Oracles Milton S. Terry, 2012 This is the extended and annotated edition including an extensive annotation of almost 10 000 words about the oracles in religion an interactive table of contents perfect formatting for electronic reading devices THE Sibyls occupy a conspicuous place in the traditions and history of ancient Greece and Rome Their fame was spread abroad long before the beginning of the Christian era Heraclitus of Ephesus five centuries before Christ compared himself to the Sibyl who speaking with inspired mouth without a smile without ornament and without perfume penetrates through centuries by the power of the gods The ancient traditions vary in reporting the number and the names of these weird prophetesses and much of what has been handed down to us is legendary But whatever opinion one may hold respecting the various legends there can be little doubt that a collection of Sibylline Oracles was at one time preserved at Rome There are moreover various oracles purporting to have been written by ancient Sibyls found in the writings of Pausanias Plutarch Livy and in other Greek and Latin authors Whether any of these citations formed a portion of the Sibylline books once kept in Rome we cannot now determine but the Roman capitol was destroyed by fire in the time of Sulla B C 84 and again in the time of Vespasian A D 69 and whatever books were at those dates kept therein doubtless perished in the flames It is said by some of the ancients that a subsequent collection of oracles was made but if so there is now no certainty that any fragments of them remain
