Where Miracles Happen Joan Wester Anderson, 2010-10-01 In our highly scientific age, even the possibility that miracles might occur is often cast to the side of the rational road. But to those individuals who have actually experienced incredible supernatural occurrences, first hand, modern day miracles are just as real as the air we breathe. *Where Miracles Happen* by Joan Wester Anderson contains 45 stories of miraculous events and angelic encounters. From physical healing to bodily protection to divine guidance and provision, each story is firmly grounded in orthodox Christian beliefs and reminds each of us that God continues to make Himself known to us through modern day miracles.

Angels and Wonders Joan Wester Anderson, 2009-03-09 Sometimes the only answer is an angel. As a woman flees an abusive boyfriend, her gas tank on empty, money materializes in her empty purse. Millions of fireflies suddenly appear and offer guiding light to desperate refugees trying to find a path through a mountain storm. Two women strongly sense that a missionary priest far away needs prayer at the exact moment when he faces catastrophe. These are just a few of the more than thirty true stories recounted in *Angels and Wonders*, a book that points readers to the spiritual realm for answers to otherwise inexplicable occurrences. For anyone inclined toward spirituality, each amazing story provides further proof of God's heavenly care in difficult times for those who aren't sure if heaven really does intervene on earth. This book provides plenty of reasons for them to doubt their disbelief.

Sacred Natural Sites Bas Verschuuren, Jeffrey McNeely, Gonzalo Oviedo, Robert Wild, 2012-06-25 Sacred Natural Sites are the world's oldest protected places. This book focuses on a wide spread of both iconic and lesser known examples such as sacred groves of the Western Ghats India, Sagarmatha Chomolungma Mt Everest Nepal, Tibet and China, the Golden Mountains of Altai Russia, Holy Island of Lindisfarne UK and the sacred lakes of the Niger Delta, Nigeria. The book illustrates that sacred natural sites, although often under threat, exist within and outside formally recognised protected areas and heritage sites. Sacred natural sites may well be some of the last strongholds for building resilient networks of connected landscapes. They also form important nodes for maintaining a dynamic socio-cultural fabric in the face of global change. The diverse authors bridge the gap between approaches to the conservation of cultural and biological diversity by taking into account cultural and spiritual values together with the socio-economic interests of the custodian communities and other relevant stakeholders.
